DAILY MEAL PLAN

7:00 AM — Breakfast

~26g protein

Oats + milk + seeds power bowl

- 1 cup oats cooked in 1 glass full-fat milk → 14g protein
- 1 tbsp chia seeds (soaked overnight in water) → 2g protein + omega-3
- 1 tbsp pumpkin seeds → 3g protein + zinc (great for skin)
- 2 whole wheat roti + sabji → 6g protein
- 50g paneer (add to sabji or eat plain) → +9g protein

Tip: Soak chia seeds the night before in a small bowl of water. Mix into oats in the morning.

1:00 PM — Lunch

~32–40g protein

4 roti + dal + sabji + dahi + kale chane

- 4 whole wheat roti → 10g protein
- 1 full bowl moong dal / toor dal / masoor dal → 12g protein
- Sabji (any vegetable) → 2g protein
- 100g dahi (curd) → 3–4g protein
- 1/2 cup boiled kale chane with salt + lemon + jeera → 9–10g protein
- Raw carrot + cucumber slices on the side → fiber, vitamin A, skin hydration

Kale chane tip: Soak overnight, boil in the morning. Keep a batch in the fridge for 2–3 days.

4:00 PM — Pre-gym snack

~10g protein

1 roti + peanut butter + 1 fruit

- 1 whole wheat roti → 2.5g protein
- 1 tbsp peanut butter → 4g protein + healthy fats
- 1 banana (best choice — fast carbs for gym energy) → 1g protein

Eat 45–60 minutes before gym. Banana gives quick energy, peanut butter gives sustained fuel.

7:30 PM — Post-gym dinner

~30–48g protein

4 roti + dal + sabji (+soya Mon / Wed / Fri)

- 4 whole wheat roti → 10g protein
- 1 big bowl dal (moong / toor / masoor) → 12g protein
- Sabji → 2g protein
- SOYA DAYS (Mon, Wed, Fri): add 40g dry soya chunks to sabji or dal → +18g protein

Most important meal of the day. Eat within 45 minutes of finishing your workout. On soya days this meal alone gives ~42–48g protein.

BUDGET PROTEIN SOURCES — YOUR KITCHEN

Food	Protein	Cost (approx)	Best use
Moong dal	~24g / 100g dry	Rs.90–100/kg	Chilla, dal, soup
Kale chane	~19g / 100g dry	Rs.70–80/kg	Boiled snack, curry
Soya chunks	~52g / 100g dry	Rs.80–100/kg	Sabji, dal mix (3x/week)
Toor/masoor dal	~22g / 100g dry	Rs.80–120/kg	Everyday dal
Paneer (50g)	~9g	Budget item	Lunch sabji or plain
Dahi (100g)	~3–4g	Very cheap	With every meal
Chia seeds (1 tbsp)	~2g + omega-3	Rs.200–250/250g	Oats, milk, water
Pumpkin seeds (1 tbsp)	~3g + zinc	Rs.300–350/250g	Oats, snack
Whole wheat roti	~2.5g each	Cheapest	Every meal

KEY RULES

Moong dal chilla is your best friend	Soak overnight, grind to batter, make 2 thin chillas every morning or as snack. ~14g protein, costs almost nothing.
Double your dal portions	A small katori of dal is not enough. Always eat a full big bowl at lunch and dinner. Dal + roti is your muscle-building foundation.
Soya 3x a week — never skip	Monday, Wednesday, Friday — add 40g dry soya to dinner. On these days you cross 110g protein easily.
Eat within 45 min post-workout	Your post-gym dinner is the most important meal. Muscle repair happens in this window.
Drink 3–4 litres of water daily	Start morning with 2 glasses before eating. Hydration affects both muscle growth and skin clarity.
Sleep 7–8 hours every night	Muscle is not built in the gym — it is built during sleep. No sleep = no results.
Progressive overload every week	Add 1–2 reps or a small amount of weight each week. Without this, your body stops growing.

SKIN BENEFITS FROM YOUR DIET

Food	Nutrient	Skin benefit
Chia seeds	Omega-3	Reduces inflammation, prevents dryness, strengthens skin barrier
Carrot	Vitamin A	Cell turnover, natural glow, enhances Indian skin undertone
Cucumber	Silica	Strengthens connective tissue, reduces puffiness under eyes
Pumpkin seeds	Zinc	Controls oil production, prevents acne and breakouts
Dahi (daily)	Probiotics	Healthy gut = clearer skin, reduces dull skin and inflammation
Banana / guava	Vitamin C	Collagen production — keeps skin firm and tight
Water (3–4L)	Hydration	Most important skin habit. Visible improvement in 2–3 weeks

Consistency beats perfection. Follow this plan 6 days a week, sleep well, stay hydrated — and you will see real results in 3 months.
